**Notice of Third Addendum to the  
LOCALIZED HEALTH IMPACTS REPORT  
for  
Selected Projects Awarded Funding Through the  
Alternative and Renewable Fuel and Vehicle Technology  
Program Under Solicitation PON-11-604  
Publication CEC-600-2015-003-AD3**

The Energy Commission is required under California Code of Regulations, Title 13, Chapter 8.1, Section 2343(c)(6), to consider the localized health impacts and environmental justice when approving projects for funding.

The *Localized Health Impacts Report for Selected Advanced Vehicle Technology Manufacturing Projects Awarded Funding Through the Alternative and Renewable Fuel and Vehicle Technology Program under Solicitation PON-11-604* was posted July 25, 2012, and the 30-day public comment period ended August 27, 2012. Two addendums to this report were posted on December 4, 2012 and November 1, 2013.

The Energy Commission has published a third addendum to the original Localized Health Impacts Report that analyzes a new location of a project proposed for funding under the Program. Wrightspeed, Incorporated's project "*Manufacturing the Wrightspeed Digital DriveSystem Retrofit Kit*" has changed location of the project from 2540 Junction Avenue, San Jose, California 95134 to 650 West Tower Avenue, Alameda, California 94501. The addendum was publicly available on January 23, 2015.

The addendum to the report includes staff application of the Environmental Justice Screening Method (EJSM) to identify projects located in areas with social vulnerability indicators and the greatest exposure to air pollution and associated health risks.

This report is available on the Energy Commission's website at <http://www.energy.ca.gov/altfuels/documents/index.html>.
